Power 9 Pro Announces Spoiler Contest For Upcoming Product Release

San Francisco, May 4, 2009 – Power 9 Pro, makers of the Dragon's Egg, the first carrying case designed specifically for tournament play, announced a spoiler contest for their new product scheduled to be released later this quarter.

Power 9 Pro leaked the sticker art for the upcoming product on its [blog](#) as a clue to the product's identity. Interested players are invited to submit guesses by emailing Power 9 Pro directly. All correct guessers will win the new product free of charge as soon as it is released. Complete rules for the contest can also be viewed at <http://power9pro.com/blog/2009/04/product-spoiler-contest/>.

James Dipadua, founder of Power 9 Pro says, "We're really excited to release our second product line as we're confident it is a great innovation that will ultimately bring real value to all players, casual and competitive alike."

Sticker Art

Power 9 Pro was formed because of the needs of Magic players, “I think current storage solutions are completely inadequate. I wanted to provide something more valuable, long lasting and practical than existing solutions on the market,” DiPadua said.

Power 9 Pro is active in the Magic community and has formed Team Power 9 Pro. The team will be present at the upcoming Grand Prix Seattle and Regionals in Calgary, San Jose, and New York. Team Power 9 Pro plans to expand to include members from all over the world to represent the company as passionate and competitive players.

Power 9 Pro products can be purchased online directly from Power 9 Pro at www.power9pro.com, and are also available at several local retailers across the United States.

The Power 9 Pro website has additional information about its product, team, and relevant card discussions.
